EDUCATION

BACHELOR IN COMPUTER SCIENCE | 2020 - 2025

Universidad Católica San Pablo
Arequipa – Perú

YOUTH LEADERSHIP PROGRAM | 2022

Centro de Liderazgo para el Desarrollo
Arequipa – Perú

SKILLS

- Leadership
- Empathic
- Learning Quickly
- Problem Solving
- Project Management
- Proactive
- Teamwork
- Time Management
- Effective Communication
- Critical Thinking
- Witty
- Competitive

LANGUAGES

- English (Level B2)
- Portuguese (Basic)
- Spanish (Native)

SUMMARY

I am a dedicated and proactive person with a strong passion for Artificial Intelligence and Medical Technology, I have conducted research in Quantum Machine Learning for the early detection of brain tumors. I thrive in applying cutting-edge technologies and methodologies to solve real-world problems.

WORK EXPERIENCE

Sociedad Minera Cerro Verde — January 2025 - December 2025

Business Analytics Intern

- Developed programming skills in Flutter, focusing on component-based code architecture and cross-platform development.
- Experienced working within an Agile framework (Dev, Test, Prod).
- Provided support for PowerBI, SAP, and SharePoint reporting tasks.
- Honed skills using Snowflake.
- Proficient in Microsoft Office 365 suite.

GPS SCAN — March 2024 - September 2024

Pre-Professional Intern, Web Development

- Developed software for vehicle tracking, focusing on a user-friendly interface and accurate real-time tracking

POLTRADE S.A.C — August 2024 - December 2024

IT Assistant and Community Manager

- Manage the company's ERP system, ensuring its effective use across the organization
- Develop and execute comprehensive marketing strategies and campaigns that align with the company's goals and objectives.
- Lead, mentor, and manage a marketing team, fostering a collaborative and results-driven work environment.

POLTRADE S.A.C — January 2024 - August 2024

Administrative Assistant

- Establish the company's marketing team from the ground up.
- Oversee market research to identify emerging trends, customer needs, and competitor strategies.
- Monitor brand consistency across marketing channels and materials

PLASTIGESA.EIRL — August 2023 - December 2023

Logistics Assistant

- Honed skills in commitment and organization by efficiently managing the company's warehouses
- implemented effective solutions for inventory management, including overseeing the inflow and outflow of goods, conducting continuous inventories, and maintaining order, all through a database platform.

PROGRAMMING LANGUAGES

- Python (Advanced)
- C++ (Advanced)
- Flutter (Advanced)
- React (Intermediate)
- C# (Advanced)
- SQL (Advanced)
- JavaScript (Intermediate)
- PhP (Intermediate)
- AJAX (Basic)
- Haskell (Basic)
- Kotlin (Basic)
- Java (Basic)
- HTML/CSS (Advanced)

FRAMEWORKS & TOOLS

- Excel (Advanced)
- Oracle (Intermediate)
- Microsoft Azure (Intermediate)
- PowerBi (Advanced)
- Flask (Advanced)

INTERESTS

- Artificial Intelligence and Machine Learning
- Data Engineering
- Data Science
- Medical Technology
- Quantum Computing
- Data Science

CERTIFICATIONS

Intermediate Phase - English as a Foreign Language — April 26, 2024

Student
Successfully completed at Británico Ingles with a Level B2

Youth Leadership Program - Programa de Liderazgo Juvenil — October 1 – December 10, 2022

Student
Successfully completed at the Centro de Liderazgo para el Desarrollo
With 130 academic hours

Choregraphe Course - Programming Pepper Robot — July 26 – November 28, 2022

Programmer
Completed the course succesfully with a on-site test with Pepper robot

Cambridge English Entry Level Certificate in ESOL International (Entry 2) — January 9, 2018

Candidate
Council of Europe Level A2
Regulated by Ofqual
Date of Examination: November 2017
Date of Issue: January 9, 2018

CONFERENCES & EVENTS

ICTIS 2025 - Information and Communication Technology for Intelligent Systems — May 23–24, 2025

Co-author & attendee
Presenting the paper NeoArgosTools: A flowchart pipeline tool for neoantigen detection from single nucleotide variants

ISLA 2024 - Information Systems in Latin America Online Conference — November 20–22, 2024

Author & Speaker
Being a speaker author for the paper Hybrid Quantum Model for Brain Tumor Classification

ISLA 2024 - Information Systems in Latin America Online Conference — August 12–14, 2024

Attendee
Organized by the Latin American and Caribbean Chapter of the Association for Information Systems (AIS)

RESEARCH & PROYECTS

Quantum Machine Learning for Brain Tumor Detection

Conducted research on applying quantum computing techniques to enhance machine learning models for medical imaging and diagnostics. The project focused on improving the accuracy and efficiency of brain tumor detection.

NeoArgosTools: A flowchart pipeline tool for neoantigen detection from single nucleotide variants

Developed an automated pipeline for early cancer detection utilizing neoantigens, incorporating analysis of tools, databases, and neural networks for T-cell receptor (TCR) recognition. Presented at ICTIS 2025, New York.

AWARDS & RECOGNITION

1st Place – Poster Competition of the Department of Computer Science — September 13, 2024

Universidad Católica San Pablo
Poster: Hybrid Quantum Model for Brain Tumor Classification

Student Representative – Department of Computer Science Council — December 18, 2023

Universidad Católica San Pablo
Credential issued: December 18, 2023
Term started: December 15, 2023

Lead Teacher at CEP — September 15 – November 16, 2023

Teacher
Acknowledgment for Service as Lead Teacher at Concurso Escolar de Programación (CEP) organized by Chapter ACM 2023
